

# RUBBER AIRLINE HOSE BS5118/2

SKU / PART NUMBER: RAL

**Application:** Compressed Air, Water & Industrial

**Reinforcement:** Polyester Yarn

**Temperature Rated:** -10°C to +60°C

**Standard:** BS5118/2

Rubber airline hose is durable, flexible and lightweight enough to allow maximum dexterity and maneuverability while remaining sturdy and hard-wearing. The rubber construction means it lies flat and doesn't kink or tangle while also easy to coil, store and transport. It is the ideal hose for workshops, garages, commercial premises and use with nail guns and sprayers.

Suitable for many compressed air, water and general industrial applications. The tube is a black synthetic elastomer reinforced by high tensile textile cords and is protected by a smooth black synthetic elastomer with excellent abrasion, ozone and oil mist resistance.

Internal Diameter	Outside Diameter	Working Pressure	Busting Pressure	Bend Radius	Maximum Length
6mm	13mm	20 Bar	60 Bar	70mm	100 Metres
8mm	15mm	20 Bar	60 Bar	90mm	100 Metres
10mm	17mm	20 Bar	60 Bar	120mm	100 Metres
13mm	21mm	20 Bar	60 Bar	180mm	100 Metres
19mm	29mm	20 Bar	60 Bar	240mm	100 Metres
